Editorial Board

Alex Goodridge, Editor

Alex is an Associate Editor at the BMC series. Before joining BMC, Alex completed a BSc in Biological Sciences and a MSc in Molecular Biotechnology at the University of Birmingham, before working in industry for a few years as a research scientist at a medical development company, where his role was to develop new immunodiagnostic assays for various biomarkers. Most recently, Alex completed his PhD research in Algal Biotechnology at Durham University, where he worked on a project to develop seaweed biomass as a feedstock for biofuel production using various biochemical and biophysical techniques. Alex now looks forward to promoting open access publishing and reproducible research in his role at BMC.

Senior Editorial Board Members

Mariana Braga

[Back to top](#)

Dental techniques; tools, materials and surgical research

Mariana Braga is an Associate Professor in Pediatric Dentistry at the School of Dentistry, University of São Paulo, Brazil, where she teaches both undergraduate and graduate dental students. In the postgraduate course, she also teaches about systematic reviews and manuscript writing. She has completed post-doctoral studies herself in Health Economics at McMaster University, Canada. She joined the Editorial Board of BMC Oral Health as Section Editor in 2018. Her research focuses on investigating the impact of diagnostic and therapeutic strategies to control dental caries in children. She has been also coordinating multi-institutional initiatives to improve teaching-learning in Cariology among undergraduate students. She has published many papers and books on Pediatric Dentistry. Moreover, Mariana holds a research productivity scholarship (Level 2) from CNPq, a Brazilian funding agency.

Rodrigo Mariño

[Back to top](#)

Delivery, management and promotion of oral health and dental care

Rodrigo Mariño is a public health dentist, Professor of Population Oral Health at the Melbourne Dental School, The University of Melbourne, where he has worked since 2004. Rodrigo has a dental degree from the University of Chile, a Master's in public health (U Minn), and a PhD from the University of Melbourne. Rodrigo's research strongly focuses on oral health promotion and reducing inequalities in oral health status. Rodrigo has excellent research expertise in social epidemiology, dental workforce issues, public health, migrant health, Information and Communication Technology, gerontology, and population oral health. He has established links and maintain continuous contact and research activities with major research and academic groups in Australia and overseas. Rodrigo has published more than 165 papers in scientific journals and major research reports, and 39 Books Chapters. Rodrigo was the founder and first President of the e-Oral Health Research Network, IADR, Senior Editorial Board Member with BMC Oral health and member of the editorial board of two additional international, peer-reviewed journals. Rodrigo has also been a consultant to the Pan American Health Organization/World Health Organization in Washington, DC.

Maha El Tantawi

[Back to top](#)

Maha El Tantawi is Professor of Dental Public Health at the Faculty of Dentistry, Alexandria University, Egypt, where she also obtained Bachelor and Master's degrees. She received her PhD degree in Dental Public Health from Alexandria University in a joint supervision mission to the University of Michigan. Maha teaches biostatistics, principles of research design and evidence-based dentistry to undergraduate and postgraduate students in Alexandria University and has taught medical and dental students in other universities in Egypt and Saudi Arabia. Maha's research interests include global oral health, oral epidemiology, social determinants of health, dental workforce issues in addition to dental education, e-learning and e-assessment. She collaborates with several international groups on multi-country projects. Maha has published more than 100 papers in peer-reviewed international journals and several book chapters. Maha is a Senior Editorial Board Member with BMC Oral Health and a member of the editorial board of other international, peer-reviewed journals. Maha was a Guest Editor for the recent Collection titled "[Something in the Water - Fluoridation and Caries](#)".

Morenike Oluwatoyin Folayan is a Professor of Paediatric Dentistry with the Obafemi Awolowo University, Ile-Ife. Her research areas of interest are structural determinants of risks for early childhood caries; adolescents oral, mental, sexual and reproductive health. I focus on translational research and work on ground as an advocate that pushes for gender equality and rights of marginalised communities. As well as being a Senior Editorial Board Member, Morenike was a Guest Editor for the recent Collection titled "[Something in the Water - Fluoridation and Caries](#)".

Karen Vinal-Collier

[Back to top](#)

Dr Karen Vinal-Collier gained her BSc (Hons) and MSc in Psychology and Psychological Research Methods from Lancaster University in 2006 before completing her PhD in Health Psychology at the University of Leeds in 2013. She is Lecturer in Behavioural Sciences for Dental Public Health within the Faculty of Medicine and Health at the University of Leeds. She is the leading qualitative researcher in the School of Dentistry and brings psychological research expertise to understanding the patient experience through teaching and research. She has participated in numerous grant applications across many long-term conditions concerning oral health. With extensive experience in evidence synthesis, Dr Vinal-Collier has published systematic, scoping and cost-effectiveness reviews. Dr Vinal-Collier has recently been appointed Chair of the School of Dentistry Research Ethics Committee.

The Journal Citation Indicator is a measure of the average Category Normalized Citation Impact (CNCI) of citable items (articles and reviews) published by a journal over a recent three year period. It is used to help you evaluate journals based on other metrics besides the Journal Impact Factor (JIF).
