Open access options

Indian Journal of Medical Microbiology offers authors two choices to publish their research:

Gold open access

Articles are freely available to both subscribers and the wider public with permitted reuse.

An [open access publication fee](#) is payable by authors or their research funder.

Subscription

Articles are made available to subscribers as well as developing countries and patient groups through our [access programs](#).

No open access publication fee.

In accordance with funding body requirements, Elsevier does offer alternative open access publishing options. Visit our [open access page](#) for full information.

Your publication choice will have no effect on the peer review process or acceptance of your submission.
